# Announcements (before panel session)

# REVERB data after challenge

- For challenge participants:
  - You can continue to use REVERB data without payment as long as you have/purchase WSJCAM0 license
  - See Keisuke's email for more detail
- For non-challenge participants:
  - RealData (MCWSJ) is now on LDC's catalogue
  - SimData will soon be available on the catalogue

# Special issue related to challenge

---

- Now under discussion
- Detail will be announced (hopefully at around IWAENC-2014/Interspeech-2014) to all the challenge (by email/on the web)

# REVERB CHALLENGE

<http://reverb2014.dereverberation.com/>

## Panel session

# Questions to discuss

- How was the challenge framework? How can we do better?
- Was this challenge already overcome?
- Usefulness of SimData and Realdata ?
- Objective measures used for SE appropriate ?
- Which directions/methodologies are essential to pursue?
  - For improving ASR performance
  - For improving SE performance
- Is collaboration between SE and ASR necessary?
